

EURECA-PRO 'STEM Innovation Contest '

Name of the judge:

Name of the team:

First or Second round:

	Over Standard (8-10 points)	Standard (5-7 points)	Behind Standard (1-4 points)	Score
1 TEAMWORK: Know-how, role definition, dedication, behaviour and gender composition	Explanation shows substantial to complete understanding of the team organization, individual team member roles and responsibilities. Gender-balanced mentoring	Explanation shows some understanding of the team organization, individual team member roles and responsibilities. Gender balanced mentoring	Explanation shows limited understanding of the team organization, individual team member roles and responsibilities. Gender balanced not considered	
	Over Standard (8-10 points)	Standard (5-7 points)	Behind Standard (1-4 points)	Score
2 PROPOSAL VALUE: problem definition, generated ideas, and designed/implemented solutions	Explanation shows substantial to complete understanding of the problem to be solved , of the proposed solution and of the critical thinking skills and fundamentals used	Explanation shows some understanding of the problem to be solved , of the proposed solution and of the critical thinking skills and fundamentals used	Explanation shows limited understanding of the problem to be solved , of the proposed solution and of the critical thinking skills and fundamentals used	
	Over Standard (8-10 points)	Standard (5-7 points)	Behind Standard (1-4 points)	Score

3 FEASIBILITY: The viability that the conceptual project can be implemented in the Second round and that it offers a valid solution to the proposed real-life challenges	Explanation shows substantial to complete understanding of the viability of the project according to: i) methodology accuracy and feasibility, and ii) proper costs definition	Explanation shows some understanding of the viability of the project according to: i) methodology accuracy and feasibility, and ii) proper costs definition	Explanation shows limited understanding of the viability of the project according to: i) methodology accuracy and feasibility, and ii) proper costs definition	
	Over Standard (8-10 points)	Standard (5-7 points)	Behind Standard (1-4 points)	Score
4 DEGREE OF INNOVATION: innovativeness of the project approach and implementation	Explanation shows substantial to complete understanding of the project novelty including new technologies, materials, processes, etc.	Explanation shows some understanding of the project novelty including new technologies, materials, processes, etc.	Explanation shows limited understanding of the project novelty including new technologies, materials, processes, etc.	
	Over Standard (8-10 points)	Standard (5-7 points)	Behind Standard (1-4 points)	Score
5 SOCIAL AND ENVIRONMENTAL IMPACT: potential capacity of the project for generating a positive impact in the community where it is developed, benefiting society, or having a positive effect for the environment	Explanation shows substantial to complete understanding of the positive benefits that the project represents for society or for mitigating a current environmental problem	Explanation shows some understanding of the positive benefits that the project represents for society or for mitigating a current environmental problem	Explanation shows limited understanding of the positive benefits that the project represents for society or for mitigating a current environmental problem	
	Over Standard (8-10 points)	Standard (5-7 points)	Behind Standard (1-4 points)	Score

<p>6</p> <p>PRESENTATION: clarity in the exposition, creativity, commitment, communication skills, and persuasive attitude</p>	<p>Presentation content demonstrates substantial to complete knowledge of subject matter. Presenters demonstrate substantial to complete public speaking skills, professionalism, enthusiasm, and answers in response to questions from panel of judges. Presentation incorporates substantial to complete creative use of tools and techniques</p>	<p>Presentation content demonstrates some knowledge of subject matter. Presenters demonstrate some public speaking skills, professionalism, enthusiasm, and answers in response to questions from panel of judges. Presentation incorporates some creative use of tools and techniques</p>	<p>Presentation content demonstrates limited knowledge of subject matter. Presenters demonstrate limited public speaking skills, professionalism, enthusiasm, and answers in response to questions from panel of judges. Presentation incorporates limited creative use of tools and techniques</p>
