

RE-EURECA-PRO

The Research and Innovation Dimension of the European University on Responsible Consumption and Production

Participants: Montanuniversität Leoben, Mittweida University of Applied Sciences, Technische Universität Bergakademie Freiberg, University of León, University of Petrosani, Silesian University of Technology, Technical University of Crete

WP 8: **Action 3 – New Shared Potential - Joint Innovation Structure Utilization Strategy,**
Technical University of Crete

Milestone 16: Results of Pilot Actions Evaluation Plan

Type: Summary for the project's website (as MS16 is an internal report, confidential and only for members of the consortium including the Commission services, this summary includes basic content that can be published)

Professor Panayiotis Partsinevelos, WP8 Contributor, Member of the Board of TUC, Email: ppartsinevelos@tuc.gr

Virginia Alizioti, M. Sc., Project Management, Email: valizioti@tuc.gr

Grant Agreement No.: 101035798

Project duration: 01.09.2021 – 31.08.2024

Summary

In the context of D8.2 “Strategic and Action Plan document” for joint innovation structure utilization and specifically in Milestone 16, the scope is to conclude, based on the input received by the partner universities, on the Pilot Actions that will be tested in the alliance and thus provide additional feedback about the common elements for a joint innovation structure utilization strategy. Since Milestone 16 is an internal report, confidential and only for members of the consortium including the Commission services, this summary includes basic content that can be published.

In MS16, input was requested and provided by all partners on the following:

- a) The operation of a Mentorship program on innovation and the volunteering participation of mentors (a mentors’ list available for all partner universities of RE-EURECA PRO)
- b) The implementation of "Startup coffee" events in the university
- c) The existence of a horizontal fabrication and innovation lab for the whole university

In synopsis, the input that has been received by all partners can be depicted below:

WP8, MS16	Responses from the partner universities			
Partner	Mentorship Program	Mentors List for RE-EURECA PRO	Startup coffee events	Fabrication and Innovation labs
MUL	YES	NO	YES	NO
HSMW	YES	YES	NO	NO
TU BAF	YES	NO	YES	YES
ULE	YES	YES	YES	YES
UP	NO	YES	YES	NO
SUT	YES	NO	NO	YES
TUC	YES	YES	NO	YES

In the context of proceeding with practical steps on the way to a ‘Joint Innovation Strategy’, while keeping the above as useful indicators, a set of pilot structures will be proposed for implementation and testing by all partner universities, within the first trimester of 2024, to offer valuable input for the “Joint Innovation Strategy” (final document and essential outcome of WP8). Possible adaptation on minor components of the pilot actions’ implementation will be made according to each university’s possibilities and characteristics. Detailed description of the pilot actions implementation will be offered in the D8.3 “Pilot actions”.
